

# Health & Beauty

Woo customers by being the always available service with personalized bookings and manage their wellness calendar

## Introduction

Be a part of the well being of clients by offering them hassle-free ways of making appointments and sending them anything from a diet plan to a fitness tip.

## Get into the box

Share promotions, service flyers and web URLs with prospective customers via SMS. Use STRIPL to track click -throughs in real time and measure marketing reach and effectiveness.

## Fill the gaps

Offer time-bound discounts for lean seasons using STRIPL mobile vouchers in SMS campaigns. STRIPL will handle the end -to-end voucher creation, delivery and redemption.

## Stay alert

Send customized automated reminders of appointments and other alerts to clients using **STRIPL** API and organize their wellness calendar.

## Manage multiple branches

Let your branches/franchisees conduct their own SMS campaigns but centrally manage the credits distribution and lock down templates with **STRIPL** enterprise -grade features.

## Book my slot

Allow customers to book a slot with their preferred hairdressers and gym trainers with just a keyword text message to your dedicated long-codes or short-codes.
